REFEREES

Has the local Referees Society confirmed they will provide coverage for this tournament?

Yes No _____

Name and email address of Society contact? _____

***** Please attach an addenda with a list any support information for your event.**

MEDICAL COVERAGE

FRONTIER CR requires, as a minimum, that there be 2 qualified medical persons field side. Qualified medical persons include Certified Athletic Trainer (ATC), medical physician (preferably sports medicine or orthopedic specialty), and physician's assistant with orthopedic experience. A canopy with a table and chairs shall be provided for use by the medical staff along with a cooler with ice to treat players.

The presence of an EMT and Ambulance does not replace any of the aforementioned qualified medical persons and should be provided based on host's experience with emergency medical response time at the event location when an ambulance is not present.

The host must prepare an **Emergency Action Plan** (EAP) for the tournament. The EAP must be completed and submitted to the Frontier CR Sevens Program Director no later than 10 days before the tournament for review.
